

SOBERANES FIRE

CA-BEU-003422

OPERATIONAL PERIOD

TUESDAY JULY 26TH 0700
to
WEDNESDAY JULY 27TH 0700

Corrected
7/26/14
RBL

INCIDENT OBJECTIVES (ICS 202)

1. Incident Name: Soberanes	2. Operational Period: Date From: 7/26/16 Date To: 7/27/16 Time From: 0700 Time To: 0700				
3. Objective(s): <u>Management Objectives</u> <ul style="list-style-type: none"> Provide for and maintain public and first responder safety by utilizing the incident safety analysis process. Protect all critical assets at risk to include the redwoods, historical assets within the affected area, infrastructure and improvements, watershed, and transmission lines. Utilize tactics that promote protection of sensitive natural and cultural resources in the Ventana Wilderness. It is the Unified Incident Commander's Leader's Intent to ensure collaboration at all levels of the incident. Be financially responsible for all management and fire suppression tactics. Foster and enhance community and political relationships. All management actions and efforts will be focused on serving, safeguarding and protecting the citizens and natural resources of Monterey County. <u>Control Objectives</u> <ul style="list-style-type: none"> Keep the fire North of the South Fork of the Little Sur River Keep the fire South of Huckleberry Hill Keep the fire West of Rancho San Carlos / White Rock Club Keep the fire East of Hwy 1 					
4. Operational Period Command Emphasis: Perimeter Control and Structure Defense.					
General Situational Awareness Very Steep and rugged terrain. Dangerous rates of spread.					
5. Incident Action Plan (the items checked below are included in this Incident Action Plan): <table style="width: 100%; margin-top: 10px;"> <tr> <td style="width: 33%;"> <input checked="" type="checkbox"/> ICS 203 <input checked="" type="checkbox"/> ICS 204 <input checked="" type="checkbox"/> ICS 205 <input type="checkbox"/> ICS 205A <input checked="" type="checkbox"/> ICS 206 </td> <td style="width: 33%;"> <input type="checkbox"/> ICS 207 <input type="checkbox"/> ICS 208 <input checked="" type="checkbox"/> Map/Chart <input checked="" type="checkbox"/> Weather Forecast/Tides/Currents </td> <td style="width: 33%;"> <u>Other Attachments:</u> <input checked="" type="checkbox"/> ICS 220 <input checked="" type="checkbox"/> Safety Message <input checked="" type="checkbox"/> Fire Behavior Forecast <input checked="" type="checkbox"/> Training Message </td> </tr> </table>			<input checked="" type="checkbox"/> ICS 203 <input checked="" type="checkbox"/> ICS 204 <input checked="" type="checkbox"/> ICS 205 <input type="checkbox"/> ICS 205A <input checked="" type="checkbox"/> ICS 206	<input type="checkbox"/> ICS 207 <input type="checkbox"/> ICS 208 <input checked="" type="checkbox"/> Map/Chart <input checked="" type="checkbox"/> Weather Forecast/Tides/Currents	<u>Other Attachments:</u> <input checked="" type="checkbox"/> ICS 220 <input checked="" type="checkbox"/> Safety Message <input checked="" type="checkbox"/> Fire Behavior Forecast <input checked="" type="checkbox"/> Training Message

Soberanes Fire Weather Forecast

FORECAST NO: 3

NAME OF FIRE: Soberanes

PREDICTION FOR: 0700 Tue-0700 Wed

UNIT: CA-BEU

SHIFT DATE: 7/26-7/27

SIGNED:

TIME AND DATE

FORECAST ISSUED: 1900 7/25/16

**Incident Meteorologist- Ryan Walbrun
NWS-Bay Area**

WEATHER DISCUSSION: Marine layer will compress to between 1000 and 1500 feet as high pressure builds over the area leading to a warming and drying trend above the marine layer. Surface winds will remain light over the fire area today with a general southwest wind. The light winds and strengthening inversion will likely lead to heavy smoke over the fire area along with the Carmel Valley helibase and nearby airports. In addition a shallow fog/cloud layer will persist along Highway 1. Main concern for night operations will be a lowering marine layer down to around 1000 feet with rapidly drying humidity values for the ridgelines. Night operations needs to be especially aware of these low night time humidity and associated fire behavior. General trend through midweek will be continued warming and drying with a shallow marine layer.

WEATHER FORECAST FOR Tuesday:

WEATHER: Fog and low clouds on the coast otherwise areas of smoke.

TEMPERATURES: 3-6 degrees warmer. 84-94 above 1500 feet. 68-78 along Hwy 1 in Div X/Z.

HUMIDITY: Afternoon minimums 13-21% above 1500 feet Branch I and II. 40-55% Div X/Z

20 FT WINDS:

RIDGETOP - Southwest 4-8 mph afternoon gusts 12-15 mph in Div C and M.

SLOPE/VALLEY - Becoming upcanyon 2-5 mph afternoon gusts 8-10 mph.

Marine Layer: Around 1200 feet along Hwy 1 but little impact for most of the inland Divisions.

WEATHER FORECAST FOR Tuesday Night:

WEATHER: Areas of smoke otherwise fog and low clouds Hwy 1 and below 1000 feet.

TEMPERATURES: 2-5 degrees warmer. 63-72 above 1500 feet. 53-57 along Hwy 1 in Div X/Z.

HUMIDITY: Poor recovery 15-25% above 1500 feet except locally 9-15% after midnight above 2000 feet. Good recovery 80% lower slopes Div X/Z along the coast.

20 FT WINDS:

RIDGETOP - South to Southeast 3-6 mph.

SLOPE/VALLEY - Evening upcanyons 3-6 mph gusts 10-12 mph...becoming light overnight.

Marine Layer: Compressing to around 1000 feet or less overnight.

EXTENDED FORECAST: Warming trend Weds-Thu. Marine layer 1000 feet. Light winds and strong inversion with heavy smoke impacts likely.

SAFETY INFORMATION: Smoke will likely impact air operations. Know your elevation and monitor RH and temperature changes as the marine layer compresses. Please take wx obs.

WEATHER SUMMARY

WARMER AND DRYER THROUGH THE NEXT FEW DAYS, SEE IMET FORECAST.

OUTPUTS

FIRE BEHAVIOR

GENERAL

THIS AREA HAS LITTLE OR NO FIRE HISTORY SINCE THE 1954 DEVIL FIRE EXCEPT FOR THE 2008 BASIN COMPLEX TO THE SOUTH. WEATHER HAS MODERATED THE LAST FEW DAYS COMPARED TO THE INITIAL FIRE RUN ON DAY 1. HOWEVER THE WINDS HAVE CHANGED DIRECTION 90 DEGREES EACH DAY, FROM THE NORTH ON SATURDAY, WEST ON SUNDAY AND SOUTH ON MONDAY. FUELS ARE STILL IN EXTREMELY DESSICATED CONDITION ESPECIALLY LARGE DIAMETER DEAD FUELS DUE TO THE FIVE YEARS OF BELOW NORMAL RAINFALL ON THE CENTRAL COAST. DEAD FRACTION IN MOST STANDS HAS ALSO INCREASED DUE TO THE DROUGHT. SMOKE COVER HAS SHADED THE FUELS IN THE LAST DAY, LOWERING THE PROBABILITY OF IGNITION TO 40%. LIVE FUEL MOISTURES IN CHAMISE FUELS ARE APPROACHING CRITICAL LEVELS ALL ACROSS THE REGION.

FIRE BEHAVIOR IN THE CENTRAL COAST MOUNTAINS TENDS TO INCREASE AFTER MIDNIGHT DUE TO RELATIVE HUMIDITY BOTTOMING OUT ABOVE THE MARINE LAYER. INCREASED FIRE ACTIVITY MAY CONTINUE FOR SEVERAL HOURS. MONITOR RH DURING NIGHT HOURS TO BE PREPARED.

SPECIFIC

BRANCH I

DIVISIONS A, C AND F

HEAVY BRUSH AND GRASS FUELS ON THESE DIVISIONS ARE VERY SENSITIVE TO SMALL CHANGES IN WIND AND SOLAR RADIATION. DEAD OAKS HAVE CONTRIBUTED TO FUEL LOADINGS ON THE GROUND. 1600 HOURS SEEMS TO BE A TRIGGER FOR INCREASED FIRE ACTIVITY EACH DAY.

BRANCH II

DIVISIONS K, M AND P

THE FIRE IS CREEPING THROUGH SURFACE FUELS WITH OCCASSIONAL ROLL-OUT DRIVEN UPHILL RUNS OR SLOPE REVERSAL RUNS THAT CAN INCLUDE SINGLE TREE OR SMALL GROUP TORCHING, HEAVY DOWNED FUELS EXIST IN THE DRAINAGES AND CAN RESULT IN HIGH INTENSITY BURNING EVEN WHEN BACKING. SHORT TO MEDIUM RANGE SPOTTING UP TO HALF MILE WILL OCCUR IN AREAS OF TORCHING.

BRANCH IV

DIVISION T, X AND Z

MOST OF THIS BRANCH HAS BEEN BELOW THE MARINE LAYER. MANY PLACES ON THESE DIVISIONS THE FIRE IS EITHER SMOLDERING OR HAS GONE OUT UNDER THE MARINE INFLUENCE. SOME AREAS SMOLDERING AT THE BOTTOM OF STEEP DRAINAGES STILL HAVE THE POTENTIAL OF A SLOPE REVERSAL RUN IF THE FIRE SPOTS ACROSS A DRAINAGE.

AIR OPERATIONS:

SMOKE WILL CONTINUE TO LIMIT AVIATION ACTIVITY DURING MOST OF THE DAY WITH A SHORT WINDOW IN THE LATE AFTER NOON. THE MARINE LAYER WILL BE MORE COMPRESSED SO THERE MAY BE OPPORTUNITY EARLIER AT THE HIGHER POINTS OF THE FIRE.

SAFETY

- ON 8/16/1939 JOSEPH CALANDRA DIED IN A BURNOVER ON BIXBY MOUNTAIN ON DIVISION P
- TREES ARE FALLING EVERY MINUTE ON MOST DIVISIONS WITH TREE COVER. MAKE SURE YOU ARE PREPARED TO DEAL WITH ESCAPE ROUTES COMPROMISED BY FALLEN TREES
- BOULDERS UNDERMINED BY FIRE PASSAGE ON STEEP SLOPES CAN FALL WITH NO WARNING.

FATIGUE

CREWS ON THE ROAD and FIRELINE

Watch Out

- Impacts situational awareness
- Impacts work performance
- Impacts general safety
- Traveling within the incident

Mitigation

- Brief crews specific to the special instructions in 204 to divisional assignment
- Implement the buddy system for monitoring
- Schedule work/rest cycle based on workload and weather, intake Water and Food
- Reduce speed, utilize headlights at all times, watch for wildlife and civilians

HEAVY EQUIPMENT

DOZERS and MASTICATORS are ASSIGNED TO MULTIPLE DIVISIONS

Watch Out

- Operators may have limited visibility
- Operations may cause rock and bolder roll out -Watch out!
- Maintain appropriate working distance.

Mitigation

- Make sure that you have eye contact with operator before you approach.
- Maintain high levels of situational awareness when working around heavy equipment

ROCKS AND BOULDERS

CONTINUE TO BE A HAZARD ON THIS INCIDENT - NEAR MISSES REPORTED

Watch Out - Be on the lookout for lose rocks and boulders

- Rocks may roll for great distances down slope
- Large rocks in roadways can get caught between 'duals'
- Lose gravel, rocks and boulders may end up in roadways

Mitigation - Maintain high level of situational awareness for rolling rock and boulders

- Watch out in areas with steep slopes
- Stop and check for rocks between dual tires before traveling on the highway
- Listen for rolling rocks and boulders and 'yell out' to others around you.

JACK PICCININI
TEAM SAFETY OFFICER

INCIDENT ACTION PLAN SAFETY ANALYSIS (ICS 215A)

1. Incident Name: Soberanes		2. Incident Number: 16-CA-BEU-003422	
3. Date/Time Prepared: Date: 7/25/2016 Time: 1630 hours		4. Operational Period: Date From: 7/26/2016 Date To: 7/27/2016 Time From: 0700 hours Time To: 0700 hours	
5. Incident Area	6. Hazards/Risks	7. Mitigations	
Div. A,C,F,K,M,P,T,X,Z	Poor Communications	Do to the steep canyons tactical frequencies may or may not work. Preplan a backup relay plan and confirm communications.	
Div. A,C,F,K,M,P,T,X,Z	Under Slung and Falling Debris: Dislodged due to steep terrain.	LCES, 10 Standard Fire Fighting Orders, 18 situations that shout "Watch Out."	
Div. A,C,K,M,T,X,Z	Indirect Fireline	Brief crews before engage in firefighting, supervisors must provide a briefing on the complexities of working indirect.	
Div. A,C,K,M,T,X,Z	Mid-Slope Fireline	Conduct thorough briefing for all personnel. Use Downhill Line Checklist (IRPG p. 8). Establish adequate safety zones (IRPG p.7).	
Div. A,C,K,M,T,X,Z	Unburned Area	LCES, Utilize worst case scenario when working in or around pockets of unburned fuels.	
Div. K,M,P,T,X,Z	Increased night time fire behavior has been witnessed on this incident, and common in this area, also changes in Wind Direction	Expect intense fire runs. Take weather regularly. Maintain situational awareness specific to wind direction changes and increased fire spread.	
Div. A,C,K,M,T,X,Z	Steep Terrain	Watch footing, maintain downhill tool placement. Be aware of loose material becoming dislodged.	
Div. A,C,F,K,M,P	Highway 68 / Laureles Grade / Highway 1 Corona Road is narrow, windy and steep.	Slow speeds to minimize brake use, Type I's use low gears or exhaust brake and be aware of the heavy tourism traffic on PCH.	
ICP – Staging-Div. A,C,F,K,M,P,T,X,Z	Routes of Travel; Entering and Exiting Incident Base, Highway 1; Speed Limit in Incident Base;	Drive with extreme caution, lights on, drive slowly and expect opposing traffic. Decreased visibility due to smoke, fog and dust.	
Div. A,C,F,K,M,P,T,X,Z	Hazard Trees and Snags	LOOK UP! No extended breaks or work under trees. Post a lookout if work under trees is required. Remove hazard trees when possible.	
Div. A,C,F,K,M,P,T,X,Z	Aircraft-Tankers and Helicopter- Retardant, Water Drops and Turbulence	Post lookouts and make escape routes and safety zones know. LCES Watch overhead for Hazard Trees and wind changes.	
Div. A,C,F,K,M,P,T,X,Z	Downhill Fireline	Utilize downhill fireline check list (IRPG), Maintain adequate escape routes & safety zones.	
Div. A,C,F,K,M,P,T,X,Z	Fatigue – Physical and Mental	Continually monitor your crew for fatigue and illness. Rehab your crew; take breaks out of the smoke if possible. Know the signs and symptoms. Look out for one another.	
Div. A,C,F,K,M,T,X,Z	Poison Oak	Wear appropriate PPE. Take quick preventative measures once exposed.

John Brooks (COML)															

The convention calls for frequency lists to show four digits after the decimal place, followed by either an "N" or a "W", depending on whether the frequency is narrow or wide band. Mode refers to either "A" or "D" indicating analog or digital (e.g. Project 25) or "M" indicating mixed mode. All channels are shown as if programmed in a control station, mobile or portable radio. Repeater and base stations must be programmed with the Rx and Tx reversed.

Air Guard must be in the last channel of every plan (168.6250, PL 110.9 on TX only) Once 205 is complete, email it to com205@fire.ca.gov or fax to the local ECC and ask them to email it for you.

8. MEDICAL EMERGENCY PROCEDURES

EMERGENCY FREQUENCY: CALCORD

LINE EMERGENCY:

Crew Supervisor will contact Division Supervisor with patient complaint/condition and location.

- Division/Group Supervisor contacts:
 - Closest EMS resource
 - Communications Unit
- Communications Unit contacts:
 - Ground or Air ambulance as requested
 - Operations
 - Safety
 - Medical Unit (916) 622-3371
- Division Supervisor or designee will serve as point of contact and run medical emergency on assigned channel.
 - A pre-assigned tactical frequency (i.e. CALCORD) should be used for IWI and only for duration of need.
- Communications Unit will clear command channel for emergency traffic as needed and only for duration of need.

INCIDENT BASE EMERGENCY:

Contact Communications on CALCORD with patient complaint/symptoms and location. Communications will respond appropriate medical response.

- Communication contacts:
 - Medical Unit
 - Safety
 - Logistics
 - Operations
 - Crew Supervisor
 - Comps/Claims

PUBLIC INFORMATION SECTION

Incident Information Line: (831) 204-0446 or 211

Incident Media Line: (831) 647-6257

STATUS	
Incident Start Date: 07/22/2016	Incident Start Time: 8:48 am
Incident Type: Wildland	Cause:
Incident Location: Soberanes Creek, Garrapata State Park, Palo Colorado, north of Big Sur	Total Personnel: 2305
Acreage: 19311	Containment: 10%

MEDIA – The California State Penal Code Section 409.5(d) allows the news media to enter scenes of disaster, riot or civil disturbance. Properly identified members of the news media should not be restricted from entering locations specified within the code. However, this does not include crime scenes, private property and does not imply that the news media may interfere with incident operations while they are in the areas of concern. You can get further information about Penal Code Section 409.5(d) at <http://www.leginfo.ca.gov/cgi-bin/displaycode?section=pen&group=00001-01000&file=403-420.1>

CAL FIRE SOCIAL MEDIA POLICY – When on a CAL FIRE incident you will adhere to the CAL FIRE Social Media Policy, Section 0691. You can get further information about the CAL FIRE Social Media Policy at <http://calfireweb.fire.ca.gov/library/handbooks/0600/0691.pdf>

PHOTOGRAPHS AND VIDEOS OF INCIDENT – We are in a new era of media. Media no longer means news/broadcast industry, but now refers to anyone that has the capability to shoot video, photographs and post them onto social media sites in a matter of minutes. Unfortunately, we have seen some instances of photographs or videos that have depicted unsafe, unprofessional or embarrassing circumstances which are a serious breach of ethics. When this happens, it reflects poorly on all that are attached to this incident. Posting an inappropriate video, photo or blog comment could expose oneself to unwanted ramifications. It may be unsafe to shoot photos or video and a firefighter who is concentrating on a camera loses their situational awareness.

The Public Information Office would like copies of the video and pictures that you safely took while not in an emergency situation, fire suppression activity or in an overhead assignment. Bring your video and pictures to the Public Information trailer; they will be reviewed and possibly uploaded to our many CAL FIRE social media sites. Remember, we don't want photographs or videos that depict unsafe, unprofessional or embarrassing circumstances, which are a serious breach of ethics. You can also send your photographs and videos to the following email Soberanesfire2016@gmail.com

LOST AND FOUND – The Information Section will manage lost and found items for the incident. If you have lost an item please leave your contact information and what you have lost at the Information Section. If you have found an item on the incident, bring the item to the Information Section with your contact information as well.

MAIL SERVICE – The Information Section will assist you in getting items mailed from the incident as well as receiving items whether it is letters or packages.

CAL FIRE

INCIDENT MANAGEMENT TEAM

WATER USAGE PLAN

California Drought Emergency

The following shall be considered and implemented by all fire resources as a means to provide maximum efficiencies when utilizing water resources, while minimizing the impacts to private and public water supplies. Accountability shall be maintained for all water supplies that are utilized and care should be applied to ensure proper replacement and/or reimbursement to the supplier/ owner.

Fireline personnel- (During mop up operations)

- Use of Pencil Hose and Garden Nozzles with Shut-Offs.
- Use of Back pumps.
- Dry Mop-up and consolidation of heavy fuels to areas where they can burn out safely
- Locate/ Relocate Firelines to lighter fuels or natural barriers when safe.
- Set up and use portable tanks in anticipation of longer transport times for Water Tenders.
- Use of foams, gels and other water enhancers.
- Evaluate need to mop up in excess of 200 feet from fireline

Road Maintenance and Repair-

- Monitor and water roads only when and where needed.
- Water when most effective (evening and nights).
- Use chemical treatments when available (Magchloride, Omni bind etc).
- Consider use of tertiary or treated water (sp)

Aviation Operations-

- Use of Gels, Foams and Retardants. Set up portable plants.
- Consider Blivits and Pencil hose for interior mop up operations as opposed to numerous bucket drops.
- Establish and use pre-use agreements for existing and known water sources.
- Use large watershed dip sites when able. Minimize use of small, static ponds and lakes.
- Maintain accountability of water used and locations of dip sites.
- Evaluate need for interior bucket drops

Private Water Supplies-

- Notify property owner as early as possible.
- Minimize usage and develop alternative water supplies when and where appropriate.
- Track usage (meter, 214 form) and develop a plan to replace water.
- Make arrangements for reimbursement and damage claims if needed.

Public/ Municipal Water Supplies-

- Notify Agency as soon as possible and request a representative to the incident.
- Identify fill areas and request metering devices. Place on incident map.
- Use alternative or reclaimed water sources when available. Place on incident map.
- Make arrangements for reimbursement and damage claims if needed.

Management and Supervision-

- Use leaders intent and consider establishing Water Conservation as a Management Objective.
- Consider complexity of water use on incidents. Consider establishing a Water Supply Group Supervisor to coordinate additional resources to support the incident needs.
- Complete the Water Usage Report daily and turn in to Finance
- Review this check list and brief daily.

WATER USAGE LOG

DATE: _____

Division / Group: _____

AGENCY ID / VENDOR: _____

I.e., Strike Team 1110C, Acme Water Tenders

REQUEST # _____

TURN INTO FINANCE DAILY

WATER SOURCE LOCATION	Hydrant	Open source i.e. pond	Tank	Gallons Used	Property Owner / Contact Number if known **

****Please note if you made contact with property owner and their contact.
(Use reverse side if needed.)**

Information: _____

The intent of this document is intended to track, record and validated the amount of water used on a incident. It's not intended to review the performance of equipment using the water on an incident.

TRAINING SPECIALIST MESSAGE

A Training Specialist is available for trainees on the incident.

All federal, state and local government agency trainees working on position task books will need to register with the Incident Training Specialist in order to receive proper credit for your assignment. We are located with Check-In.

next to Check In

Bring your task book with you.

Archaeological and Historical Sites Fireline Guidance for the Soberanes Incident

Do not compromise safety for the protection and preservation of archaeological and historical sites. When feasible and prudent:

1. Be on the lookout for prehistoric and historic sites. Prehistoric archaeological sites include temporary camps containing scatters of obsidian and/or chert flakes that often look like broken glass. More permanent village sites containing circular depressions (house pits), artifact scatters, and dark brown-black soils (midden). These typically occur on flats near sources of water, along ridgetops and saddles, and other such places suitable for camping. Historic sites include old wooden buildings, structures and corrals, rock foundations, wells, and debris scatters. These kinds of resources can be found in the same kinds of environmental settings as prehistoric camp sites.
2. No archaeological or historical sites have yet been flagged. If you observe artifacts, features, or sites, attempt to avoid dozing or driving through and/or parking on these sites, if feasible, especially with heavy equipment.
3. If you can't avoid sites, minimize disturbance as much as feasible, only clearing the surface to as minimal a depth and width as necessary.
4. Leave all artifacts in place. Some artifacts may have been intentionally placed for religious or ceremonial reasons.
5. When a site is discovered, flag it for visibility and report its location to the Division Supervisor. If feasible, note locations of discovered resources on a map. Better yet, take a GPS reading. Leave information with the Plans Section so that the sites can be relocated and protected during both the suppression and fire suppression repair phases of the Incident.
6. If you encounter a burial or other human remains, cease work in that area immediately and contact the CAL FIRE Archaeologist. State law requires that CAL FIRE then contact the County Coroner, who will then determine if the remains are part of a crime scene. If the Coroner determines that the remains are Native American, State law requires the Coroner to contact the Native American Heritage Commission in Sacramento.

FIRING OPERATION CHECKLIST

Location: _____

Date: _____ Time: _____

Firing Supervisor _____

1. Personnel Briefing

- ☐ Objectives
- ☐ Conditions (fire environment)
- ☐ Resource assignments identified
 - ☐ Firing personnel
 - ☐ Holding forces
 - ☐ Lookouts
- ☐ Ignition plan/sequence
- ☐ Communication Plan
- ☐ Contingency Plan
- ☐ Safety issues

2. Go / No-Go

- ☐ All personnel briefed
- ☐ Weather forecast reviewed
- ☐ Resources in place
- ☐ Lookouts posted as needed
- ☐ Anchor and termination firing points identified
- ☐ Communications systems in place
- ☐ Fire behavior forecast reviewed
- ☐ Escape routes and safety zones established and made known
- ☐ Adjoining forces/Air Attack notified

3. Approval Prior To Firing

- ☐ Division Supervisor
- ☐ Branch Director
- ☐ Operations

4. Other Notifications

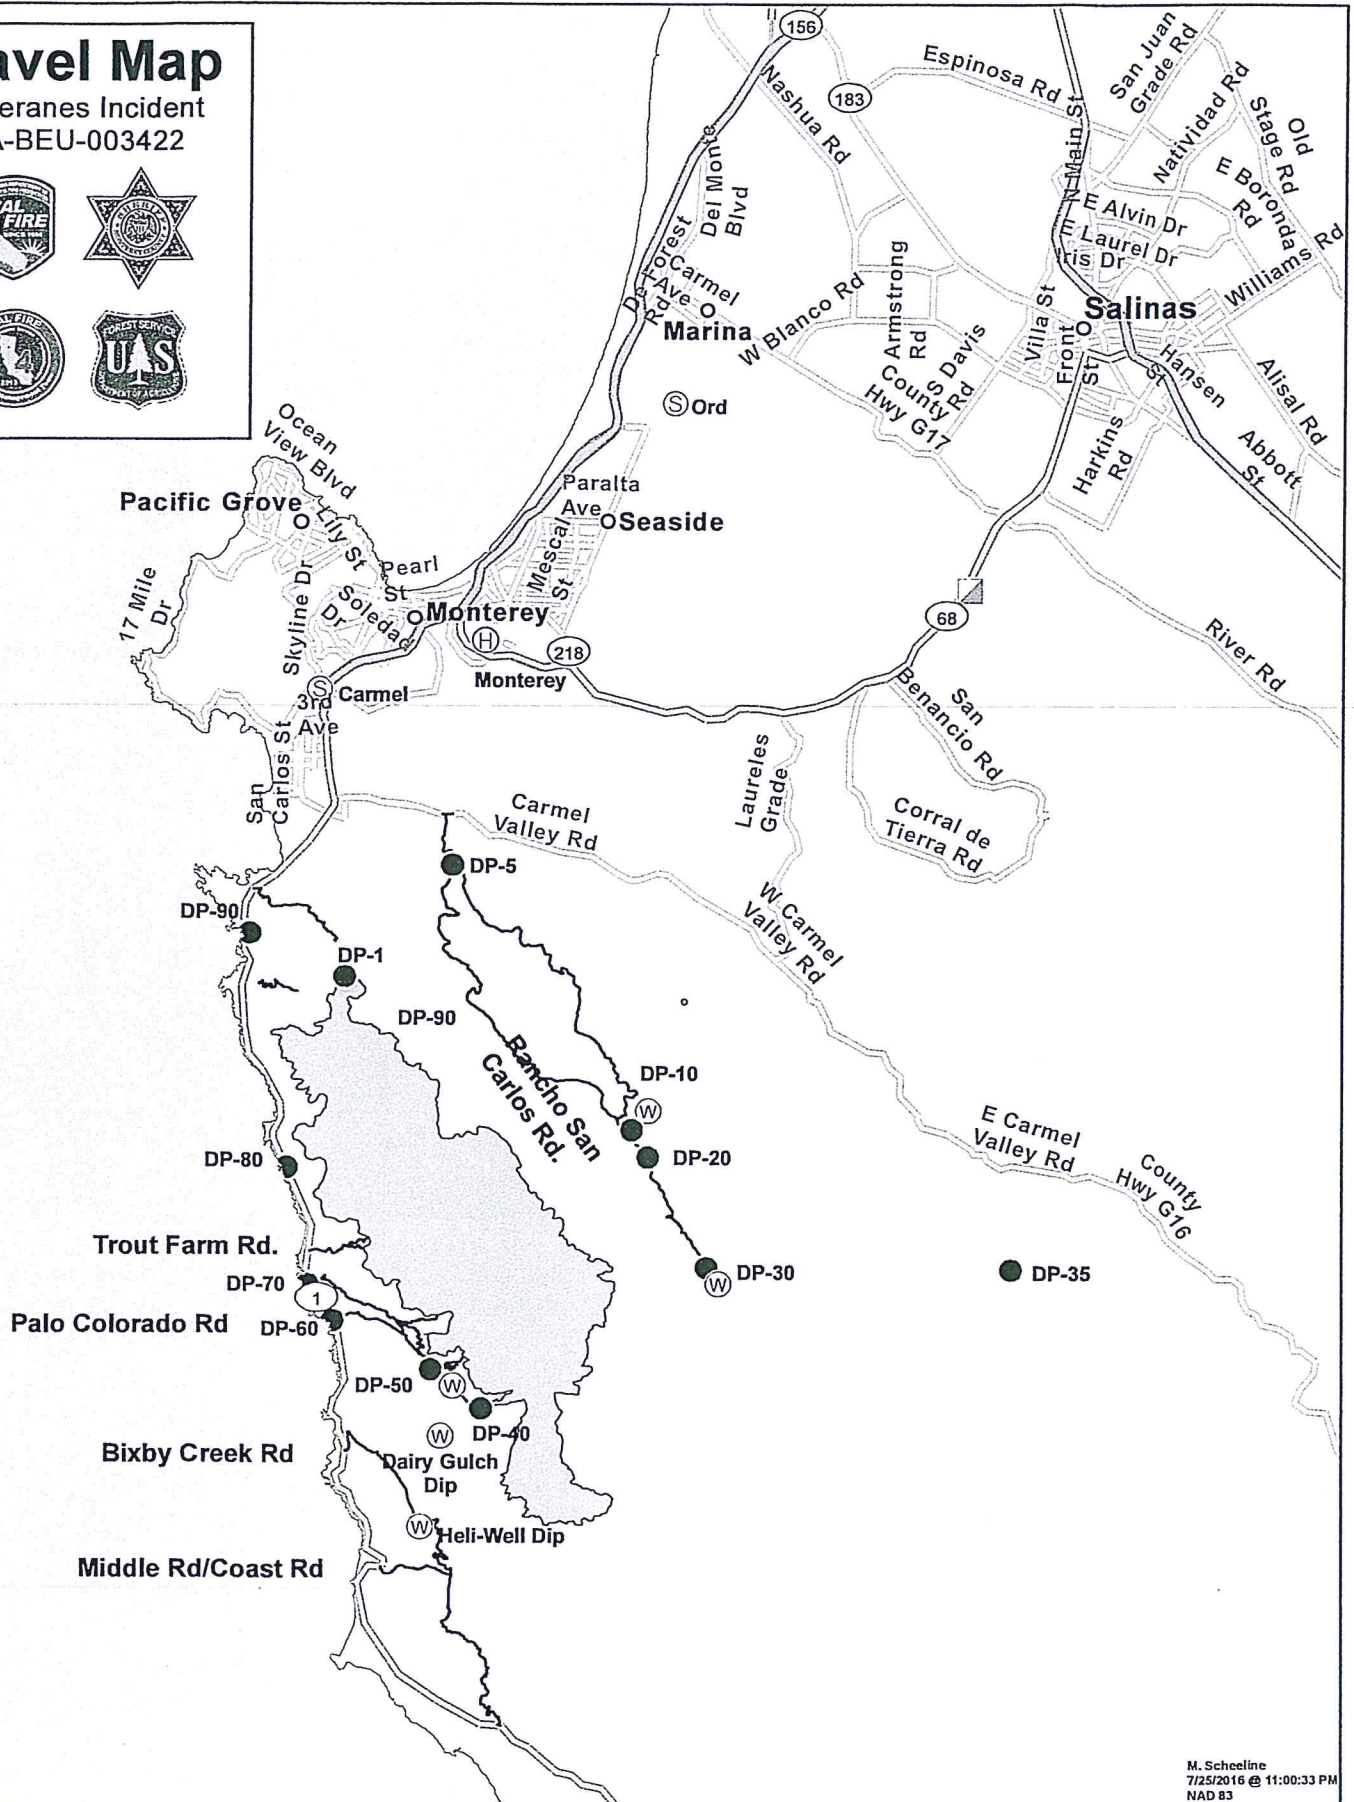

- ☐ Other: _____
- ☐ Other: _____
